IT Leadership

Phoenix, Arizona | cp@christianpantle.com
christianpantle.com | linkedin.com/in/christianpantle

IT leader with a background in business ownership, staff development, acquisition integration and sustained cost control. Built and carried a growing global business's IT function, combining hands-on infrastructure and cybersecurity experience with clear communication and practical business judgment.

Experience

AM Technical Solutions, Inc.

IT Manager | January 2019 to Present

AMTS's senior IT leader, responsible for the IT function and technical direction. AMTS provides architecture, engineering, construction and commissioning in high-tech markets, with 1,500+ employees, \$30B+ in global capital projects across 26 countries and 95% customer retention.

- Manage and develop AMTS IT staff and work with Sequence's IT employees as we bring operations together. Oversee infrastructure in Ireland and support company efforts in India, Israel and Malaysia.
- Led AGI/AMTS IT integration and the IT side of Kyron's acquisition and migration. Own ongoing infrastructure responsibilities; Sequence integration across two locations is underway.
- Built and carried IT through +292.6% growth in direct AMTS active inventory, or +506.0% including Kyron and Sequence under higher-level oversight, against the same 2019 baseline through September 2026. Inventory includes available equipment.
- Made the business case for adopting AGI's Microsoft 365 environment across the combined company. Led the integration, improving collaboration through Teams, SharePoint and OneDrive, and implemented MFA.
- Built comprehensive on-premises and Microsoft 365 backup coverage with Kaseya/Unitrends, offsite cloud copies, a hosted server recovery route and permanent historical mailbox archives.
- Built and launched Intune and Windows Autopilot in approximately two months to prepare for roughly 200 computers of project demand. The environment is operational, with user migration continuing.
- Created official responsible-AI policy and training, computer-use policy and cybersecurity guidance rolled out across the organization. Lead ongoing HIPAA risk assessment and control implementation.
- Selected recent negotiations (2026): approximately \$136K, combining \$96K in laptop purchasing benefit reported to executive leadership and approximately \$40K in estimated annualized licensing savings and avoided increases. The licensing figure represents a full year of benefit.
- Brought Austin support in-house and took responsibility for ongoing support and continuity in June 2021. Approximately \$447K in estimated vendor cost avoided as of September 20, 2026, based on roughly \$85K/year since June 18, 2021. Gross estimate excluding internal delivery costs.

Abbie Gregg, Inc.

IT Manager | June 2009 to January 2019

- Managed IT and mentored staff at an architecture and engineering firm serving high-tech manufacturing. Advised the President and CFO on technology decisions, budgets and forecasts.
- Supported international work through servers, remote connectivity and mobile equipment. Migrated physical servers to VMware. Continued with AMTS after the acquisition.

Christian Pantle

Experience continued

Robert Kubicek Architects and Associates, Inc.

IT Consultant (Contract) | June 2009 to July 2010

IT Manager | September 2008 to May 2009

- Held the sole IT role, repaired inherited server and backup problems, supported office consolidation and chaired the Standards Committee. Continued as a consultant, maintaining systems and training a successor.

Dunstone Financial, LLC

IT Manager | August 2006 to September 2008

- Managed IT staff, interns and projects supporting call-center operations in Arizona and Florida. Brought outside IT and telecom work in-house and developed staff alongside hands-on infrastructure and support.
- Built data import, cleansing, reporting and automation processes using SQL, Excel, Access and Crystal Reports to support daily business operations.

Earlier experience

Onsite Computer Experts

Owner / Head Technician | November 2003 to September 2007

Owned an IT services business for Phoenix-area companies, managing customer relationships, staff and technical delivery. Sold the business to Valley Technologies LLC.
